

**Bonneville Power Administration  
Transmission Business Line (BPAT)  
NOTICE**

**Tagging of Loss Schedules  
September 27, 2002**

Effective October 1, 2002, the WECC-ISAS members voted to adhere to NERC Policy 3, section 1.2 regarding the Load Sink Entity (LSE) being the responsible party for preparing all interchange schedule tags.

At this time BPA is not prepared to author the tags for losses. BPAT cannot provide BPAP with the specific schedule information due to a possible SOC violation. BPAT will be creating a tool that will automatically author the tags when the loss schedules are calculated. This tool will not be available until November 1, 2002. Customers will need to continue tagging their losses until this auto-create tool is available.

If you have any questions, please contact Shirley Buckmier at [smbuckmier@bpa.gov](mailto:smbuckmier@bpa.gov).
